PRIME IS HERE

FEATURED:
DANIEL BOONE PRIME
WIFI SMART CONTROL
DESIGNED WITH THE BACKYARD PITMASTER IN MIND, WE BUILT OUR NEW LINE OF PRIME GRILLS EVEN SMARTER AND STRONGER. WITH A BEEFED-UP FAMILIAR FRAME, WE’VE MANAGED TO INTRODUCE ALL THE INNOVATIVE FEATURES OUR CUSTOMERS HAVE ASKED FOR, AND THEN SOME.

YOU SPOKE – WE LISTENED

FEATURED: DANIEL BOONE PRIME - WIFI SMART CONTROL
BETTER TEMP CONTROL

The three principles of great BBQ are temperature, temperature, and temperature. We micro-adjusted the variable-speed fan and auger motors to keep your food at precisely the temperature you set. Get outstanding results every time you grill.

GREATER FUEL ECONOMY

GMG’s proprietary algorithms control the fuel and oxygen supply to the firebox. This insures the lowest possible fuel consumption by dispensing only enough pellets to maintain the set temperature and by burning all of those thoroughly. Less waste means lower pellet costs! Now, you can get up to 40 hours of cook time from a single hopper.

FASTER STARTUPS

We increased the motor rpm’s to feed more pellets and more oxygen during startup. This yields significantly quicker times to get to the temperature you want.
