POWER COMPONENTS

HARDWARE

ASSEMBLY

PLEASE READ AND FOLLOW ALL INSTRUCTIONS CAREFULLY

UNBOXING

CAUTION! The grill is heavy. Be careful when lifting.

1 UNBOXING

Open and remove cardboard top.

2 UNBOXING

Open **STARTER BOX**. Reference parts list. Remove cardboard filling.

3 UNBOXING

Remove grill from box and internal parts from grill. Discard cardboard.

LID HANDLE

IMPORTANT! Keep 2 spacers on each side of the grill lid to minimize heat transfer to the handle.

HARDWARE

10mm 

4 REMOVE HANDLE

Unscrew handle from inside grill lid.

5 INSTALL HANDLE

Flip hand around to the front and fasten to lid as shown here.

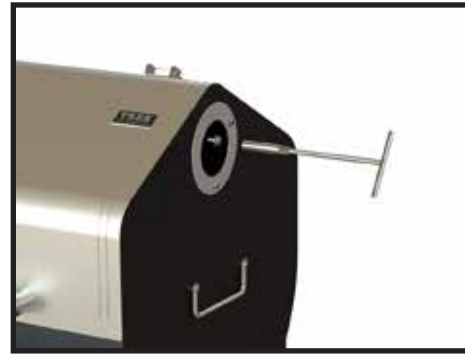

CHIMNEY

IMPORTANT! Make sure the chimney cap ALWAYS stays open.

HARDWARE

10mm 

6 REMOVE BOLTS

7 INSTALL CHIMNEY

HEAT SHIELD

IMPORTANT! For proper heat shield positioning, use the marks on the adjuster handle. The grill wall should align with the -.5 mark on the handle, setting the heat shield about 4 in. from the left inside grill wall.

HEAT SHIELD ADJUSTER

2 | 1 | 0 | 1 | 2
SWEET SPOT

8 HEAT SHIELD

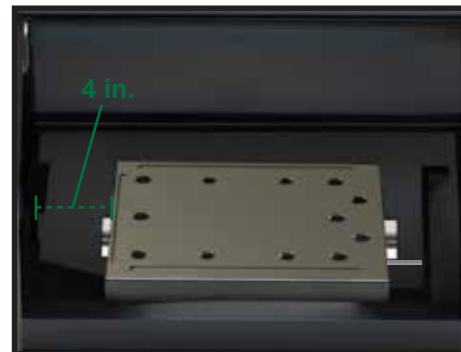

Insert heat shield onto stainless steel slider mount brackets.

9 HEAT SHIELD ADJUSTER

Insert adjuster handle into hole on right side of grill wall and screw into the heat shield.

10 HEAT SHIELD POSITIONING

Recommended position for even heat distribution:
approx. 4 in. from left wall.

GREASE TRAY

IMPORTANT! Make sure to insert grease tray as shown below for proper temperature reading and grease drainage.

11 GREASE TRAY

Install grease tray with half-moon cut-out on left, near thermal sensor.

GRILL GRATES

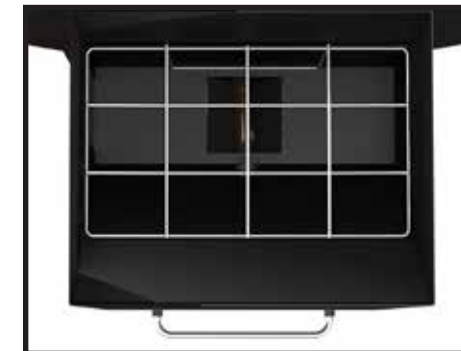

12 GRILL GRATES

Insert grates as shown.

HOPPER GUARD

13 INSERT HOPPER GUARD

Open lid and install safety guard at base of hopper.

ANTENNA

14 INSTALL ANTENNA

Screw antenna onto control board.

GREASE BUCKET

15 INSTALL GREASE BUCKET

Hang bucket on drip spout.
